

ABCD - Bug #294

rename duplicate element Permit

11/15/2016 01:49 PM - M. Petersen

Status:	Feedback	Start date:	11/15/2016
Priority:	Normal	Due date:	
Assignee:	G. Dröge	% Done:	100%
Category:	Element Name	Estimated time:	0.00 hour
Target version:	ABCD 3.0		

Description

In 2.06f the permit section became a bit more complex. Previously the element `//Unit/Gathering/Permits` contained the repeatable element `Permit` which would contain free text about any permits regarding the gathering event (Description: *"A reference to or the text of a permit related to the gathering."*). But with 2.06f `//Unit/Gathering/Permits/Permit` would become a container element for several subelements (e.g. `PermitInfo` and `PermitType`), one of which was again an element called "Permit" (now having the XPath `//Unit/Gathering/Permits/Permit/Permit`) of type `StringL` which is the same concept as the previous (`//Unit/Gathering/Permits/Permit`). This element should be renamed into something else, e.g. `PermitText` to avoid the confusion with the now container element `Permit`.

XPath: [DataSets/DataSet/Units/Unit/Gathering/Permits/Permit/Permit](#)

History

#1 - 01/23/2017 01:44 PM - D. Fichtmüller

- Tracker changed from Support to Bug
- Project changed from ABCD 3.0 Project to ABCD
- Subject changed from Fehler im xpath zum Container Permit to rename duplicate element Permit
- Description updated
- Category set to Element Name

#2 - 02/21/2017 02:14 PM - L. Lertsutham

- Description updated

#3 - 11/26/2018 09:51 AM - F. Reimeier

- Status changed from New to Feedback
- Target version set to ABCD 3.0
- % Done changed from 0 to 100

In ABCD 3.0 [DataSets/DataSet/Units/Unit/Gathering/Permits/Permit/Permit](#) will be renamed to [DataSets/DataSet/Units/Unit/Gathering/Permits/Permit/Text](#).
