Description

xpath: /DataSets/DataSet/Units/Unit/Gathering/SiteCoordinateSets/SiteCoordinates/CoordinatesGrid/GridCellCode

content: The code of the grid system used to record the gathering site coordinates.

editorial notes: ABCD Workshop 1. Please review the elements relating to coordinates when you get to it - some are missing information, and I have improvised at times (as here). (I know there are a few that are in the EURISCO doc you sent, which I still have to review.)
